

Does your special needs kid
see an amazing specialist?

LET US KNOW!

Here's what other NJ parents have said about theirs...

Richard Eytel, DMD

West Orange • Pediatric Dentist

Dr. Rick is awesome! One of my little ones has ADHD and is borderline autistic. During his first time working with my son he was patient, kind, used a calm voice and had a loving presence that made my kid feel at ease. For the first time in nine years there wasn't a fight. The visit proceeded smoothly. I'm crying tears of joy!

—ANDREA, NEWARK

Christopher Barker, PhD

Morristown • Psychologist

For the past eight years, Dr. Barker has treated my stepson who has ADD, ADHD and bipolar disorder. He's done an incredible job getting him through school, as we never thought he'd even graduate high school!

—AMY, LIVINGSTON

Robert Bruzzichesi, DMD

**Basking Ridge, Morristown, Whitehouse Station •
Orthodontist**

Dr. Bruzzichesi treated my son, who is severely autistic. He and his staff were very soothing. I recommend him to anyone with special needs children. He also treated my non-special needs son and both outcomes were wonderful. He really understands children and is a people person. He has treated some adult friends of mine with Invisalign and they also were very happy with their results.

—CONSTANCE, BASKING RIDGE

Frank Sileo, PhD

Ridgewood • Psychologist

Dr. Sileo has made such a difference in my son's life. He's autistic and had trouble connecting with people. He went from hiding from family to hugging them. Dr. Sileo gave me my son back.

—SARAH, WYCKOFF

Elke van Hooydonk, OT

Toms River • Occupational Therapist

My son is autistic and finds it hard to engage with most people, but not Elke. She makes everything fun while building a great connection. I love seeing my son light up when he's with her and we both have learned so much!

—MICHELLE, TOMS RIVER
